PROJECTS

Remote Control via Email

Remote control service

Oct. 2024 - Dec. 2024 VNUHCM - University of Science

- **Role:** Developer
- A school project for the Computer Networks course, where I developed a service that allows remote control of a computer via email commands. This project demonstrated my skills in socket programming and the HTTP/HTTPS protocols.

Tom & Jerry

Maze Game

May 2024 - June 2024

- **Role:** Developer, Designer
- A small maze game used for visualizing some path-finding algorithms (A*, Dijkstra). This project demonstrated my Python skills.

Gomoku

Game Project

Oct. 2024 - Dec. 2024 VNUHCM - University of Science

My first ever coding project.

CERTIFICATES

CS50AI - Harvard University

Aug. 2024

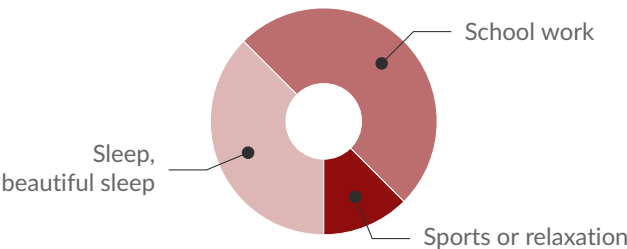

Generative AI with LLMs - DeepLearning.AI

Jul. 2024

Analyze Images with the Cloud Vision API - Google

Apr. 2024

A DAY OF MY LIFE

MY LIFE PHILOSOPHY

"When life gives you lemons, you make lemonade."

MOST PROUD OF

First Prize in Mathematics - Municipal Academic Competition
Le Quy Don High School

STRENGTHS

Friendly Hard-working Team Player
Loves Discovering Stuffs Guitar
Volunteering Activities

Python C/C++ Git/Github
Problem Solving Team Management
Artificial Intelligence

LANGUAGES
